

Murfreesboro TN

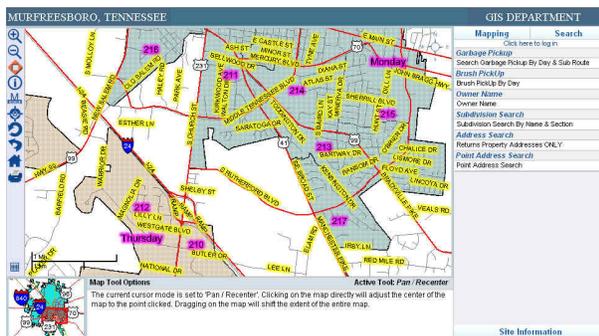

Gerald Lee - GIS Coordinator

"I absolutely believe this is going to be right up there with sliced bread and bottled beer. I love the ease with which changes and updates are implemented. If I can do it, anybody can. I have made 8 customized websites already for our City, which would probably have costs of, at least \$5,000.00-\$10,000.00 each, not to mention any other ongoing maintenance fees. It continues to save us time & money. Everyone that uses their particular site loves the customization ability that it affords. Almost whatever they want to see and/or query on, can be accomplished, really in no time at all. Freeance has been absolute web-mapping "manna" for me. Also, customer service has been very knowledgeable and prompt. I couldn't ask for anything more. I really appreciate the professionalism."

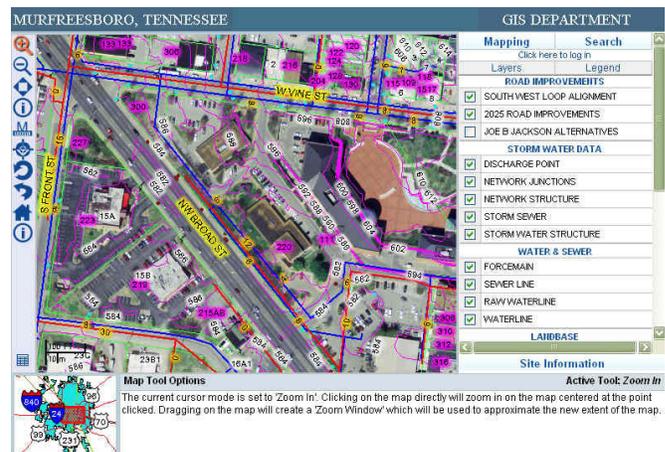

"Thanks again for a very impressive product."
